SPECIAL NOTE: The automatic updates to Adobe Acrobat have created a problem with the hyperlinks, as well as the repeated editing of Microsoft Word files. If you find a case where the hyperlinks in a publications' file Table of contents do not work as expected, please use the Bookmarks Tab located on the lefthand side of the Adobe window.

These files are being cleaned up one-by-one. Unless Adobe changes the way Acrobat handles Microsoft Word Table of Content entries, we may be forced to use the Adobe Bookmarks Tab for navigation.
